

7th successful start of Brain Bang course

Another year that promises to be amazing has begun for the classes of Brain Bang. Brain Bang is the educational wing of Friends of CRY Club (F.O.C.C.), Kuwait. Brain Bang encourages children to learn on their own, understand and memorize their studies through their own learning style.

Classes of Brain bang are conducted fortnightly on Fridays at Don Bosco School, Salmiya . The timings are 12 noon to 2 pm in the afternoon. From this year an extra special class has been introduced just for 9th Standard kids. Here they are shown how to adapt their studies straight to the memorizing techniques.

During the interactive classes children **learn to learn** in a fun, playful and joyful manner. Learning is not done in the conventional way. Children are taught memorizing methods, learning style and creativity.

Encouraging children, motivating them to improve their studies are important to overall improvement.

If you are interested you can contacted the team of dedicated volunteers for more information at 97677820 or www.focckwt.org
